## Wellness

Based on the Ancient Greek philosophy, we offer our guests a holistic connection between body, soul and the environment.

We underline the significance of self-perception and daily practices, through the Four Humour elements; fire, air, water and earth.

Each element represents a part of ourselves, that aligns our mind, body and beauty.

Our aim is the "well-healed" guest; balancing the aura, changing the mindset on wellbeing and leading to self-love.
